

PRISONER SECURITY TRAINING MANIKIN

FOR PROFESSIONALS WHO SAVE LIVES

Purpose-built for high-risk prisoner extractions and riot control, the Ruth Lee Prisoner Security Manikin lets correctional teams rehearse every phase of detainee management without risking live staff.

Its anatomically balanced mass moves like an unconscious inmate—whether slumped in a cell corner, suspended from a ligature, or dragged through tight corridors—so officers feel authentic leverage, awkward lifts, and fatigue.

Slim, cuff-ready wrists, a reinforced neck, and a near-indestructible flame-retardant shell endure handcuffing, cell-snatch takedowns, and simulated hangings while preserving forensic evidence.

Waterproof, decon-friendly, and tough enough to survive a 4x4 drive-over, this manikin is the CERT-trusted choice for repeatable, high-stakes custodial training.

PRISONER SECURITY TRAINING MANIKIN

IDEAL FOR THE FOLLOWING TRAINING SCENARIOS:

Used by prisons, law enforcement officials, police forces and Correctional Emergency Response (CERT) teams, for the evacuation of restrained or unconscious prisoners in an emergency situation. The manikin is specially adapted to accept handcuffs for practising restraint techniques, and for the simulation of hanging by ligature, for training in body recovery and evidence preservation.

SPECIAL MATERIALS:

Constructed from the same flame retardant material used in Police ballistic/stab vests, offering 4x the strength and abrasion resistance of 16oz canvas or P.V.C. (conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008). High density webbing (25mm rated to 200 Kg, 50mm rated to 435Kg with a +/-5% range)..

FEATURES & BENEFITS:

- Anatomically correct weight distribution to give the 'feel' of an unconscious casualty.
- Slim wrist feature for handcuff training.
- Neck reinforced with heavy duty webbing for ligature training.
- Strong webbing loop at the back allows easy handling, storage and suspension for drying.
- Water repellent material, making it suitable for wet or foul scenarios.

AVAILABLE WEIGHTS & SIZES:

| DESCRIPTION | MODEL CODE | HEIGHT (M) | WEIGHT (KG) | NATO STOCK # |
|-------------|------------|------------|-------------|--------------|
| 50 Kg Adult | RLPS50 | 1.8 | 50 | N/A |
| 70 Kg Adult | RLPS70 | 1.8 | 70 | N/A |

*Manikins weighing over 50kg may have metal ballast as part of their construction. Please contact us for more information.

- Soft body joints to eliminate the risk of pinch welts and bruising; common injuries when using plastic bodied manikins.
- An immobilisation/extrication collar can be fitted around the neck of our adult manikins to promote proper casualty care.
- Comes complete with boots, overalls, and wrist cuff which are easily replaced if damaged.

NOT SUITED FOR:

- Use in temperatures above 100°C or flashover scenarios – See our Fire House manikin.
- Use in water – See our Water Rescue range.

OPTIONAL EXTRAS:

- Tough drag protectors and overalls to greatly extend the life of your manikin.
- Shoutbox and hood to give your casualty the power of speech to add extra realism.
- Face mask and wig for a more human-like appearance.

EXTENSIVELY USED BY:

- UK Police Forces and law enforcement officials.
- UK Prison Service.
- Equivalent organisations across North & South America, Europe, Australia and Asia.
